President's Message

Its May already! As I write this it comes to me that this term is already at the ½ way mark. With all the things that our group does it makes the time just fly by. We have had good speakers and I have learned quit a few things and hope that you have too. Our inter club meetings are getting good support. Our projects are getting good support. I want to thank all of you for your help. I recently volunteered as a chaperone for the Key Club convention. I wonder what was I thinking, spending several days with very high energy young people! Well, I did survive, and had a great time. Keep up all the good work!

—President Norman
