Quotes:

“Climb the mountains and get their good tidings. Nature’s peace will flow into you like sunshine flows into trees. The winds will blow their own freshness into you, and the storms their energy, while cares will drop away from you like the leaves of Autumn.

President’s Message

Here it is...my very first message! I am sort of at a loss for words. Those of you who know me, know that doesn’t happen very often. I am honored and humbled that I get to be the “head honcho” of such a terrific group of people. This year is going to be a blast. So many of you have stepped up to the plate to help out as committee chairs, and I hope you know how much I appreciate that. We are all busy, and sometimes you think you just can’t possibly fit in one more responsibility, but you did. Thank you! Thanks also to the new board members for their commitment. There are big decisions made around the table every first and third Wednesday of the month. Without you, that wouldn’t happen. And a huge thanks to Secretary Elsa and Treasurer Frank for their devotion to their positions. They are the structure that keeps this club so prosperous and strong. Also a huge thanks to Pat for putting this bulletin together each month. Please make sure you feed him information about upcoming events. Everyone has a special role in the club and my thanks go out to each and everyone of you.

Here’s to a great year! —President Angie
